Consulting Actuary

Job description

Martin & Company is recognized as being one of the best service provider partners in the insurance industry. We engage with customers that value our partnership and trust our experience and take on a holistic approach to managing their projects. Our dedicated team of professionals have years of experience and support all property and casualty lines of business, specialty markets, program business, as well as life, accident, and health lines. M&C's leadership team is a strategic, forward-thinking group that has advised and consulted with many national, regional, and local carriers and agents throughout the United States.

As a result of our continued growth, we have an excellent opportunity in our Actuarial Unit and we are seeking a qualified candidate to fill this position. You will become part of an accomplished team of industry professionals with knowledge and experience across many lines of business and programs.

Requirements:

- Conduct rate impact analyses
- Develop premium generators and raters
- Identify rate need on specific books of business
- Provide responses to objections/interrogatories from state departments
- Develop and support Loss Cost Multipliers
- Develop actuarial rate support for new products
- Maintain pricing models
- Program Business support
- Conduct competitive analyses
- Work independently and directly with clients
- Ability to work collaboratively as part of a team

Qualifications:

- At least 10 years of Property Casualty actuarial experience
- Fellow or ACAS preferred; or Credit for the following Exams/Requirements: Exam 1, Exam 2, VEE Accounting and Finance, VEE Economics, Exam 3F, OC1, OC2, MAS-1, MAS-II, Course on Professionalism, Exam 5, and actively pursuing the ACAS designation
- Experience with insurance data, calculating actuarial adjustments to the data, calculating rate level indications
- Knowledge of Commercial and Personal Lines of Business
- Knowledge of state rate & rule filing requirements
- Experience in Reinsurance, Predictive Modeling and Reserving is a PLUS
- Proficient in Excel, Access, SQL
- Team player
- Excellent communication skills

Qualified candidates will help support various lines of business and programs countrywide. Interested applicants must be detail oriented, flexible, analytical, accurate, confident, organized, disciplined, able to work under time constraints, self-motivated, energetic, and work independently and as part of a team. This is also a remote work from home position.

Job Type: Full-time Location: Remote
