

May 7, 2013

Dear TMPAA Conference Attendees,

On behalf of the USO, I would like to thank you and your volunteers for supporting our country's troops with your much needed care packages. Thanks for taking the time and effort to show how much we appreciate them.

I hope that you know how important these packages are to boost the morale of service members. For many, these packages may be the only item that they receive while they are deployed, and it also expresses our support of their mission to protect us.

Also a special thanks to NewDay USA Foundation and RenovatingHope for handling the logistics of delivering the packages to the USO center on Fort Meade.

We here at the USO of Metropolitan Washington promise to continue your undertaking of giving our best to those who serve.

Please continue to show your support each and every day, until they all come home.

Thanks again to all your volunteers for remembering our men and women in uniform.

Warm Regards,

Ron Wise
